Product is here thru quick
release & adjustable grips
offer 1 size fits all!

GRIPZO
ENGINEERED FOR ZERO THEFT

Security fixtures for tablets & smartphones

Who?

Gripzo produces mechanical security fixtures to present and prevent theft of mobile devices

Why?

Theft is of all times, mobile devices in public and semi-public spaces are always at risk of theft. Theft in Retail stores becomes more aggressive (cut & run)

For whom?

Electronic Retailers and Telco's having mobile devices on display

Companies using Tablets for hospitality applications (customer feedback, welcome, videos, routes etc.)

Retailers using tablets for 'assisted sales' in stores

Retailers using tablet for payment or cash registers at their Point of Sale (POS)

Offices with employees using tablets, providing them a security docking

Products

Grips for Smartphones

Grips for Tablets

POS Grips for tablets at point of sale

Gripzo's unique proposition

- Quick lock down and quick release.
- One size fits all through adjustable grips.
- Gripzo uses forged steel which is **STRONG**
